PROFESSIONAL EXPERIENCE

Amazon Web Services (AWS) - Generative AI Principal, Strategy & Transformation

2024 - Present | San Francisco, CA

- Led a national-to-8-region fulfillment **operating-model** redesign, owning the **business case**, executive decision memo, **governance** and incentive/routing changes; reached **76%** in-region fulfillment and supported **7B+** same/next-day items.
- Directed a **12-workstream / 6-org** GenAI **transformation** for a **100M+** user shopping assistant, aligning engineering, science, legal and GTM through work-back plans and leadership reviews; delivered **25%** adoption, **55% to 70%** brand favorability and **+15%** session depth.
- Led an **\$85M** AI buy-vs-build and diligence case across market, technical, valuation, integration and post-deal economics; consolidated overlapping tooling and improved gross margin **55% to 81%**.
- Built the sovereign-cloud growth **strategy** for regulated banks, translating sovereignty and resiliency needs into reference architectures; unlocked **\$20M+** commitments, built a **\$122M** pipeline and cut compliant deployment **6 months to 2 hours**.
- Established **transformation governance** across **15+** teams using leadership reviews, RAID logs, decision dashboards and OKRs, cutting decision latency from weeks to days.
- Built the executive Working Backwards / PR-FAQ and **\$100M+** GMV **business case** that secured **\$5M** incremental funding, translating customer evidence, strategic options, operating economics and milestone gates into a leadership decision and **implementation** roadmap.
- Built scenario, sensitivity and benefits-realization frameworks for executive trade-offs, linking strategic options to operating KPIs, resource requirements, dependencies and risk thresholds so leadership could sequence **transformation** investments against measurable value.

Rakuten Group, Inc. - Commerce & AI Corporate Strategy & Transformation - MBA Intern

2023 | Tokyo, Japan

- Stress-tested a proposed **\$50M** DTC expansion with a **10,000**-iteration Monte Carlo model across CAC, churn and payback; downside-tail evidence shifted leadership to a partnership-led model and avoided an estimated **~\$20M** loss.
- Reframed market-entry economics around cohort returns, geo-lift testing and SQL; improved CAC **\$42 to \$8.50**, LTV:CAC **0.8x to 4.5x**, D30 retention **34% to 67%** and payback **18 to 4 months**.
- Redesigned merchant workflows around embedded AI for a platform serving **70+** business units / **50K+** merchants; reached **40%** adoption, lifted conversion **15%** and cut listing time **45 to 12 minutes** while aligning product, finance and commercial teams.
- Diagnosed a cross-device attribution failure spanning Finance, Analytics and Merchant teams, then redesigned ownership and decision flows to restore transaction continuity, revenue attribution and decision-grade management reporting.
- Used adoption and workflow data to deprioritize a low-usage standalone chatbot and redirect investment toward task-based merchant experiences, pairing portfolio prioritization, benefits tracking and **operating-model** redesign with the higher-return roadmap that reduced listing time **45 to 12 minutes**.

The D. E. Shaw Group - Risk Strategy Vice President, Transformation

2018 - 2022 | New York, NY & Hyderabad, India

- Led a firm-wide risk and capital-efficiency **transformation** across **15+** engineers and five stakeholder groups with **~\$10M** capex, owning roadmap, vendor-vs-build case, steering committee and phased change plan under Basel III.
- Replaced overnight risk with real-time decisioning, cutting latency **90ms to 4.2ms**, false positives **15% to 1.8%** and operating cost by **~\$400K/month** while unlocking **\$85M** regulatory capital.
- Built change-management **governance** around a **90-day** shadow rollout and **98%** output-agreement tests, converting trading, quant and compliance debates into evidence-based go/no-go decisions.
- Managed and developed a **15+** person global team, owning hiring, promotion calibration, operating reviews and delivery standards across quant, trading, compliance and technology.
- Automated investment-data and deal workflows with semantic extraction and human-in-the-loop controls, cutting earnings ingestion from hours to seconds at **~70%** lower cost and deal consolidation **48 to 6 hours**, helping close a **\$25M** Series B ahead of competitors.

McKinsey & Company

2014 - 2018 | London, UK

Engagement Associate, Strategy & Transformation

- Led **C-suite** client workstreams across financial services, retail and telecom, converting ambiguous questions into **MECE** issue trees, hypotheses, executive storylines and **implementation** roadmaps tied to **\$100M+** capital-allocation decisions.
- Enabled a **\$1.1B** APAC **market entry** by integrating regulatory requirements, data-platform modernization and GTM design into architecture, **operating-model** and launch choices for the CFO, CIO and CMO.
- Designed elasticity-based retail **pricing** using regression and difference-in-differences; identified a **\$50M** revenue opportunity, achieved **95%** forecast accuracy and cut analytics speed-to-market **6 weeks to <1 week**.
- Led the **0-to-1** launch of a Southeast Asian digital bank, defining market sizing, MVP, operating model, alternative-data credit scoring and regulatory sandbox; scaled to **100K** users in **90 days** with approval **10% to 40%**, **2.4%** NPL and CAC **< \$10**.
- Restructured an institutional digital-asset brokerage using blocked-revenue analysis, maker-taker tiers and phased **change management**; helped grow transaction volume **\$215B to \$371B** and recurring revenue **\$45M to \$213M**.
